

PII Luncheon Forums serve as a venue for interfaith-intercultural, non-political forums to exchange ideas and discuss vital issues that relate to New Jerseyans.

The series are intended to provide a regular setting designed to cultivate friendship and deepen inter-cultural awareness and understanding among the many diverse ethnic and civic communities in New Jersey. The speakers will share their viewpoints, perceptions and experiences on timely and important issues facing our local communities and our world. After Turkish food is served, the audience will listen to speech and ask questions.

Place: All luncheons will be held at PII's Newark office.
